Aboveground pool step

Best value drop-in step

 159 KG / 350 LBS MAXIMUM WEIGHT	 ROTMOLDED
 23.5 KG / 52 LBS	 IN
 DIMENSIONS 42 1/4 X 42 X 32 IN 106.7 X 106.7 X 81.3 CM	 IN A BAG
 PEARL GREY	 DARK GREY
 ABOVEGROUND POOL	 EASY ASSEMBLY
 ONE PIECE	 EASY WINTERIZING

The Fiesta is economical and very user-friendly. Ideal for aboveground pools with 48"-54" walls and a flat bottom, it's a sturdy step system that can be installed in seconds! Includes step cups, deck supports (on model 1001), and a front-loading ballast. It can also be installed on a pool with no deck with the Classic Ladder 6003 (non regulatory in Quebec) or the Self-Latching Ladder 9600.

Add some light!

INNOVALITE
9015-RGB/BT

- Easy to install
- Choice of white LED lights or colors, Bluetooth-controlled

- Outstanding resistance to UV rays.
- Meets current and proposed ISPSC standards.
- Deck Brackets included. (with 1001 only)
- Safe rounded slip-resistant corners and surfaces.
- Adjustable system for pools 48" to 54".

Aboveground pool step

The space between the interior wall of the pool and the step is secured, providing additional protection for children.

FRONT-LOADING COUNTERWEIGHT SYSTEM

This simple, removable counterweight system not only offsets flotation but also makes winterizing your step easier.

STEP CUPS THE ULTIMATE IN LINER PROTECTION

Combined with the counterweight system, the Step Cups will maximize protection of your liner while keeping the step in position at the bottom of your pool by a suction concept. No need for sandbags with a deck application. (Canadian patent #2,612,816 - U.S. patent pending)

Added support at the back for a sturdier step. Easy installation for flat-bottom pools. Offers great stability.

42 1/4"

Textured slip-resistant surface.

Space under steps for better water circulation.
