

Walkway | 4001

Aboveground pool step

The Walkway is specially designed to adapt to aboveground pools 48" to 54" with a flat bottom. Includes step cups, deck supports, and a front-loading ballast. It can also be installed on a pool with no deck with the Classic Ladder 6003 (non regulatory in Quebec) or the Self-Latching Ladder 9600.

FRONT-LOADING COUNTERWEIGHT SYSTEM

This simple, removable counterweight system not only offsets flotation but also makes winterizing your step easier.

STEP CUPS

THE ULTIMATE IN LINER PROTECTION!

Combined with the counterweight system, the Step Cups will maximize protection of your liner while keeping the step in position at the bottom of your pool by a suction concept. No need for sandbags with a deck application. (canadian patent #2,612,816 - U.S. patent pending)
